

4th EDITION OF THE INTERNATIONAL MEETINGS

MILK, Vector of Development

Tunis, Tunisia
6 – 8 march 2023

Organised By INRAT, OEP, INRAE, CIRAD & IDELE

Following the first three editions (<https://www6.inrae.fr/lait-vecteur-developpement>), the 4th edition of the international meetings 'Milk, Vector of development' will be held in **Tunisia from March 6th to 8th 2023.**

The objective of these meetings is to further the exchanges of experience around diversity of development models concerning dairy sector observed worldwide. This is a real opportunity to bring together private companies, policy makers, producer organizations, NGOs, development agencies and scientists, to highlight the vitality and the future of dairy sector within the new global environmental and political context.

The ambition in the medium term is to bring out networks and joint projects on research, training and innovative approaches.

Three key events of the edition:
scientific symposium,
exhibition of dairy innovations,
visits to farms.

Milk, Vector of development

Topics of the scientific program (French/English)

- ◆ *Insights on the development of the dairy sector in Tunisia and North Africa*
- ◆ *Sustainability and resilience of the dairy sector*
- ◆ *Economic and social dynamics of the dairy sector in a changing world*
- ◆ *Technical, technological and nutritional dimensions of milk and dairy products*
